2. The Curriculum and Learning Management Division (CLMD) and the Information Communications Technology Unit (ICTU) would like to announce the five updates released into the ROX-CMSS system. The table will show a **Summation** at the bottom indicating the total learners per Rating Category as the second update following each filter operation. To search for the filtering results, a **Search** bar is utilized as the third update below the filter boxes. The fourth update's **Print** functionality allows the user to print the results. The fifth update's **Download** function allows the user to download the results into an excel file.
